Work Experience

Electronic components assembly specialist
SmartMoto Electronics
2019–

This job has two parts that are repeated every year. The first half of the year there are the manufacturing of the products and in the second half is dedicated to RnD.

The manufacturing included:

- SMD soldering,
- wiring assemblies,
- assembly of microelectronics,
- processing of aluminum slabs.

The RnD part was different every year. In those periods I worked on:

- developing programs to automate tasks,
- prototyping of electronic circuitry,
- new products,
- assignments for the development of the company.

Technician / Assistant Audio Engineer
Wreck IT Sound Studios / JSA Studios
2017–

The main workload of the job included:
- soldering of audio cables,
- repairing of mixing consoles and audio gear,
- guitar maintanance, setup and repair,
- development of audio gear,
- audio engineering,
- recording engineering.

Technician
Super TV Peloponnisos
2015–2019

The work in the TV station included the management of 4 local and peripheral TV stations.

The primary responsibilities was:

- maintaining the programm flow,
- video Editing in Edius,
- camera work, indoors or outdoors.

Furthermore sometimes occured jobs like:

- directing LIVE broadcasts and shows,
- sound recording,
- gear maintainance,
- LIVE streaming, Youtube and Facebook.
